PROP CELL - .3 gal
code: prop

SEED GERMINATION, SEEDLINGS, CUTTINGS

A good start is critical in growing a healthy plant. The .3 gallon Air-Pot is the perfect way to germinate seedlings or for potting cuttings. Cuttings are ready to transplant within 2 to 3 weeks. Plant directly in the garden or any size Air-Pot up to the 12 gallon, depending upon the size of plant and grow cycle you desire. Plants will not suffer transplanting shock.

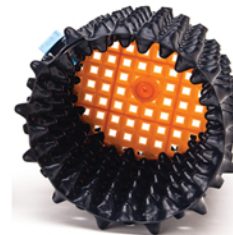

Dimension: 6"H x 4.75" Outside Diameter (4" base) ... MSRP: \$1.79

CUTTINGS, FULL TERM AND BLOOM WHERE SPACE IS LIMITED

The 1 and 2 gallon Air-Pots can be used for seed germination and cuttings. Plants can be kept for one to two seasons before transplanting into a larger pot or directly in the garden. These pots will accommodate a 2' to 4' plant through the vegetation and growing cycles depending upon space available.

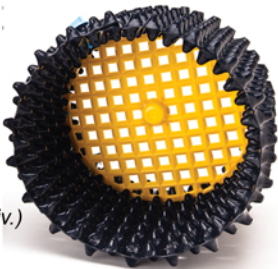

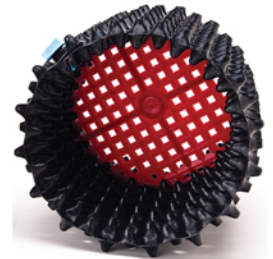

Dimension: 1 gal - 9"H x 7.5" Outside Diameter (6" base) ... MSRP: \$4.69

2 gal - 9"H x 9" Outside Diameter (7" base) ... MSRP: \$5.71

SOIL, COCO AND HYDRO APPLICATIONS

The 3 gallon Air-Pot is excellent for transplanting seedlings and cuttings. Plants can be kept for one to two seasons before transplanting into a larger pot or directly in the garden. The 3 gallon Air-Pot will accommodate a 2' to 6' plant.

Dimension: 10"H x 10.5" Outside Diameter (9" base)

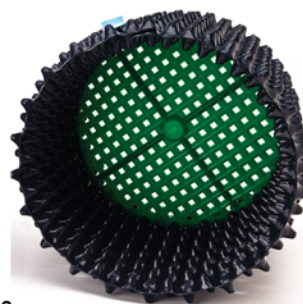

MSRP: \$8.46

SOIL GROWERS' FAVORITE

The 5 and 7 gallon Air-Pot are excellent for transplanting seedlings and cuttings from smaller containers. Plants can be kept for one to two seasons before transplanting into a larger pot or directly in the garden. These pots will accommodate a 2' to 6' plant. It is also possible to continue growing in the pots past the second season, just keep watering and fertilizing as required. The root system will continue to flourish and will produce abundant foliage.

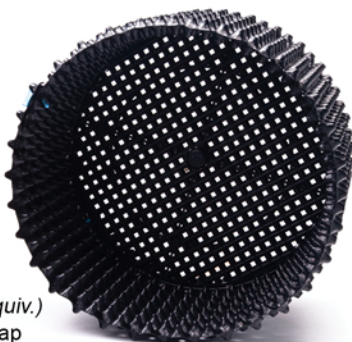

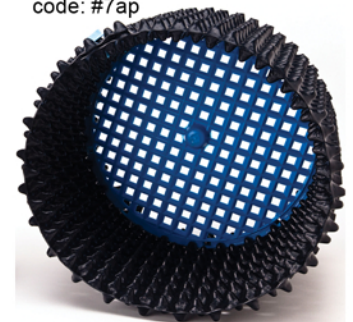

Dimension: 5 gal - 13"H x 11.5" Outside Diameter (10" base) ... MSRP: \$10.70

7 gal - 14"H x 13.5" Outside Diameter (12" base) ... MSRP: \$15.13

LARGE PLANTS

The 10 and 15 gallon Air-Pot are a great size for growing larger plants, shrubs and trees for at least two years. When transplanted, the plant will not suffer transplanting shock. These pots can be used for indoor use as long as space provides. The 10 and 15 gallon Air-Pot can accommodate plants 6' to 8' and taller.

Dimension: 10 gal - 12"H x 16.5" Outside Diameter (15" base) ...MSRP: \$21.89

15 gal - 17"H x 16.5" Outside Diameter (15" base) ...MSRP: \$26.84
